1.

About Us.

Introduction

Core2code healthcare is one of the world leading academy providing certification programmes on the Healthcare IT sector. Among the various domains of Healthcare that include Clinical Healthcare, Healthcare financing, administration, research and information technology, we offer academic certifications to enter the field of Healthcare Information Technology.

2.

Mission & Vision.

MISSION

- At Core2Code, our mission is to transform aspiring professionals into highly competent healthcare IT experts through comprehensive training, practical learning, and internationally aligned certification programs. We are committed to delivering excellence in Medical Coding, Healthcare Administration, Clinical Research, and Healthcare IT by fostering innovation, ethical practices, and career development. Through expert guidance, advanced learning methodologies, and a student-centered approach, we strive to build confidence, enhance employability, and create meaningful career opportunities for individuals across the healthcare domain.

VISION

- To become a globally trusted leader in Healthcare Information Technology and Medical Coding education by empowering individuals with industry-focused knowledge, professional excellence, and career-oriented training. We envision creating a skilled workforce that contributes to the growth of the healthcare sector through innovation, accuracy, integrity, and continuous learning.
- Our goal is to bridge the gap between education and employment by providing high-quality certification programs that help students achieve professional success and financial independence while supporting the evolving needs of the global healthcare industry.

3. Medical Coding Overview

What is Medical Coding and why is the buzz?

Medical reports containing confidential medical information are outsourced from international hospital portals to the Indian medical billing companies to process them to numerical codes that have assigned dollar values. Coder's duty is to report accurate codes for the services documented in the report. The codes are ICD (International Classification of diseases), CPT (Current Procedural Terminology) and HCPCS (Healthcare Common Procedural Coding System). With the growth of Health information management technology there is a huge demand for medical coders across the globe.

Why do you need training in medical coding?

Medical coders operate on medical reports of various specializations as compared to the various departments in a hospital. Radiology, surgery and consultations are a few to name. A coder is required to comprehend the dictation of the doctor in the report and convert them to numerical codes that have a dollar value attached to it. Assigning a code of higher dollar value or of a lower dollar value accounts to improper billing of the healthcare service. Our training imparts comprehensive knowledge on human anatomy, physiology, pathology and US based procedures that result in correct coding of claims and boost the revenue management positively.

Why choose Core2Code?

- ▶ Industry-focused training based on updated healthcare standards and current market requirements.
- ▶ Comprehensive coding training in ICD & CPT applications with real-time practical exposure.
- ▶ Training designed to match real-time industry expectations and MNC requirements.
- ▶ Strong foundation building for a successful career in Medical Coding and Healthcare BPO sectors.
- ▶ Corporate English and communication training to improve interview and workplace confidence.
- ▶ Career-oriented coaching with focus on placement opportunities in leading healthcare companies.
- ▶ Experienced trainers with strong knowledge in medical coding and healthcare processes.
- ▶ One year of dedicated job support and career guidance for all candidates.
- ▶ Special discounts for American Certification Training (CPC).
- ▶ Mock interview sessions and placement preparation for freshers.
- ▶ Study materials, manuals, and practice sessions included with the course
- ▶ Supportive learning environment with individual attention for every student.

COURSES PROVIDED

PROFESSIONAL MEDICAL CODER (PMC):

DURATION: 1 MONTH

Topics Covered:

1. Revenue Management, Medical Terminology, Human Anatomy, Physiology, Pathology, Clinical tests and Surgical Procedures.
2. ICD-10 CM General Coding guidelines, conventions and coding for acute and chronic conditions and late effect, Impending and Pressure ulcer stages Coding.
3. Chapter Specific Coding Guidelines including all the chapters like Infection, HIV, Sepsis, Neoplasm, Diabetes and Hypertension, Pregnancy and Delivery, Burns, Fracture, Laceration, Poisoning, Myocardial Infarction and Stroke Coding.
4. Introduction CPT-4 Procedure Coding Terminologies, HCPCS and Modifiers Coding.
5. Medical Billing, HIPAA Compliance and hundreds of coding practice scenarios.

ADVANCED MEDICAL CODER (AMC):

DURATION: 40 DAYS

Topics Covered:

1. Revenue Management, Medical Terminology, Human Anatomy, Physiology, Pathology, Clinical tests and Surgical Procedures.
2. ICD-10 CM General Coding guidelines, conventions and coding for acute and chronic conditions and late effect, Impending and Pressure ulcer stages Coding.
3. Chapter Specific Coding Guidelines including all the chapters like Infection, HIV, Sepsis, Neoplasm, Diabetes and Hypertension, Pregnancy and Delivery, Burns, Fracture, Laceration, Poisoning, Myocardial Infarction and Stroke Coding.
4. Introduction CPT-4 Procedure Coding Terminologies, HCPCS and Modifiers Coding.
5. Medical Billing, HIPAA Compliance and hundreds of coding practice scenarios.
6. Specialty training on consultation coding and surgery coding with dummy charts. Live on-hands experience. medical Exclusive coding training material will be provide.
7. Sample CPC preparation modules and questions for the American certifications. Exclusive discounts on the CPC examination registration with AAPC

CPC CERTIFICATION WORKSHOPS:

DURATION: 80 HOURS

Sunday classes + Exclusive unlimited CPC Mock examinations

Topics covered:

- MEDICAL TERMINOLOGY REFRESHER
- ANATOMY-12 Topics
- INTRODUCTION TO ICD & ITS OFFICIAL GUIDELINES
- INTRODUCTION TO CPT
- MODIFIERS
- EVALUATION AND MANAGEMENT
- ANESTHESIA
- SURGERY
- RADIOLOGY
- PATH & LAB
- MEDICINE
- HCPCS
- MEDICAL BILLING AND COMPLIANCE
- QUESTION PRACTISE SESSIONS
- CPC EXAM PREPATION TEST SERIES

Online Training Courses:

- Candidates who live away from the vicinity of the academy can avail the online training facility by contacting our team of Educational Counsellors available at our helpdesk.
- You will be guided on a simple four step process to register to the online training facility.
- Classes will be conducted by certified trainers and doctors on a one on one basis.

OUR CLIENTS

TESTIMONIALS

Balachander

It's very useful and informative to learn about medical coding. Now I have basic and more knowledge about anatomy, physiology in deeper. I can able to manage myself to learn. Timings were so comfortable too. Thank you for giving me this opportunity.

Aswin S

Had Wonderful Experience and Time To learn about the Medical Coding Session I have completed advanced medical coding in core2code institute. Training was so good. Trainers are very friendly. After the course completion they placed a companies and I get a job and i got more knowledge in this field. Thanks to Every mam of core2code institute For the Guiding me to Go in Great platform of Medical coding.

Logapriya

I recently completed advanced medical coding course in core2code. The training session was very nice and gained more knowledge. They taught anatomy, physiology, medical terminology, ICD, Cpt, hcpcs and hipaa. Also they gave importance to communication skills along this course. Thanks for the trainer and the institute for giving proper knowledge on medical coding.

Venkatesh S

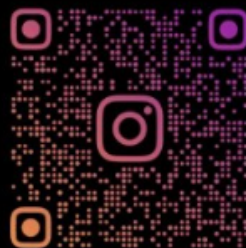

I joined Core2Code after seeing good reviews, and I'm glad I did! The classes were easy to follow, and the faculty was very friendly. They helped me gain confidence and also supported me in getting placed. Thank you, Core2Code!
